

# AVISCERA BIOSCIENCE

## ANTI-MOUSE CTRP6 ANTIBODY

### Product Information

Code	A00089-07-100
Name	Anti Mouse CTRP6 IgG
Clone No.	Polyclonal
Lot No.	
Size	100 µg
Species	Mouse
Host	Goat
Immunogen	Mouse CTRP6 rec.
Ab Type	IgG
Purification	Protein A
Formulation	lyophilized Form without preservatives free
Carry	
Storage	-20 ° C
Specificity	Mouse, Rat
Reconstitution	250 µl
Application	IHC  ELISA, WB

### Preparation

This antibody was produced from a goat immunized with purified, *E. coli*-derived, recombinant Mouse CTRP6 full length. That was purified by Protein A affinity.

### Formulation

100 µg of Goat anti-CTRP6 (Mouse) IgG in TBS without preservatives was lyophilized.

### Reconstitution

Add 200 µl of PBS to the vial to prepare antibody stock solution at 500 µg/ml. Store reconstituted antibody at 2 to 8 ° C for up a few weeks. This antibody can also be aliquotted ( by 10 µL per vial) and stored frozen at -20° C to -70° C in a **manual defrost freezer** for up six months without detectable loss of activity.

### Storage

Lyophilized antibody can be stored at 2 ~8 ° C for a few weeks or at -20 ° C for 12 months. **Avoid repeated freeze-thaw cycles.**

### Specificity

This antibody has been selected for its ability to recognize Mouse CTRP6 on indirect ELISA, immunohistochemistry and western blot.

### Applications

**Indirect ELISA** - This antibody can be used at 1:5000 (0.2 µg/ml) with the appropriate secondary reagents to detect recombinant Mouse CTRP6 on indirect ELISA.

**Immunohistochemistry**-That Antibody can be used at 2-4 µg/ml with the appropriate secondary antibody to detect CTRP6 in the paraffin embedded mouse or rat adipose tissues (ABC).

**Western Blot**-That Antibody can be used at 2-4 µg/ml with the appropriate secondary antibody to detect CTRP6 on the mouse or rat adipose tissue homogenates under reduce condition.

*Optimal dilutions should be determined by each laboratory for each application.*
