

AVISCERA BIOSCIENCE

Anti Human CTRP5 (Complement C1q Tumor necrosis factor-Related Protein 5) Monoclonal Antibody Biotinylated

Product Information

Code	A00594-08-50B
Name	Human CTRP5 Mab, biotinylated
Clone No.	F9
Lot No.	
Size	50 µg
Species	Human
Host	Mouse
Immunogen	Human CTRP5, full length rec.
Ab Type	Purified IgG
Purification	Protein G affinity
Formulation	Lyophilized Form without preservatives
Carry	BSA
Storage	-20 ° C
Specificity	Human
Reconstitution	100 µl
Application	ELISA

Preparation

This antibody was produced from a hybridoma resulting from the fusion of a mouse myeloma with B cells obtained from a mouse immunized with purified recombinant human CTRP5, full length, His Tag on N-Terminal. That antibody was purified Protein G affinity and conjugated with water soluble biotin.

Formulation

50 µg of Anti human CTRP5 Monoclonal antibody biotinylated in 100 µl of PBS contain 0.1% BSA lyophilized form.

Reconstitution and Storage

Add 100 µl deionized water to the vial to prepare a antibody stocking solution (500ug/ml). Stores it at 4°C for a few days. For long term storage, the reconstituted antibody can also be aliquotted (by 10 µL per vial) and stored frozen at -20° C to -70° C **in a manual defrost freezer** for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

Specificity

This antibody has been selected for its ability to recognize human CTRP5 full length on indirect ELISAs.

Applications

Indirect ELISA - This antibody can be used at 0.25 µg/ml to detect human CTRP5 full length on indirectly ELISA.

Optimal dilutions should be determined by each laboratory for each application.
